Technical Skills

Domain Expertise	MERN Stack
Programming Languages	JavaScript, Python, Java
Web Development	HTML, CSS, JavaScript, PHP
Libraries/Frameworks	Node.js, Express.js, React.js, Next.js, Tailwind CSS, Prisma, Bootstrap, Laravel, Git
Database	MongoDB, MySQL, PostgreSQL, Supabase

Experience

- **Trade Go Limited** | (Next.js, Tailwind CSS) **Live | GitHub**

  Designed and developed the landing page for TradeGo Limited, a UK-based clean wash chemical supplier, as a freelance project.

- **Commercial Software Development — JavaScript | Itransition Group**

  Show Certificate

Selected Projects

- **Tour-management-Api** | (Node.js, Express.js, MongoDB) **GitHub**
  An undergraduate project, my data-intensive tour API provider efficiently manages and disseminates comprehensive tour information, offering a seamless user experience for travel enthusiasts.

- **Hotel Booking Website** | (React.js, Next.js, Redux, Supabase) **GitHub**
  A project I developed by following The Ultimate React Course 2024 on Udemy by Jonas Schmedtmann. This site showcases advanced skills in React, Next.js, and Redux.

- **Rent-Match-App** | (Java, XML, Firebase) **GitHub**
  Rent-Match, an Android app developed in Java and XML, seamlessly integrates Map-box for posting rental details. Utilizing Firebase, it offers user authentication and efficient data storage in Android Studio.

- **Sign-Language-Recognition** | (Python, JavaScript) **GitHub**
  An undergraduate project, Sign-Language-Recognition utilizes Python and JavaScript to proficiently identify and interpret signs in real-time through a user's live camera feed.

Education

- **Computer Science and Engineering, East West University**
  Bachelor of Science in Computer Science and Engineering
  CGPA: **3.3/4.00**
